PROTECT YOUR INVESTMENT
IN EQUIPMENT

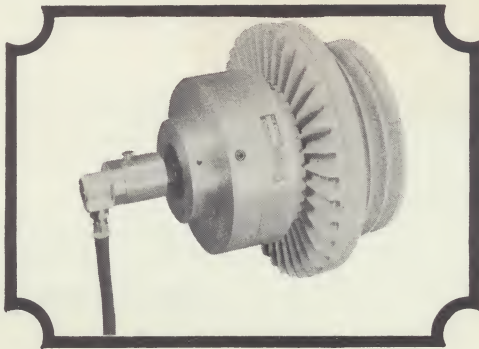

IF YOUR PRODUCTION MACHINERY REPRESENTS A MAJOR CAPITAL INVESTMENT . . .

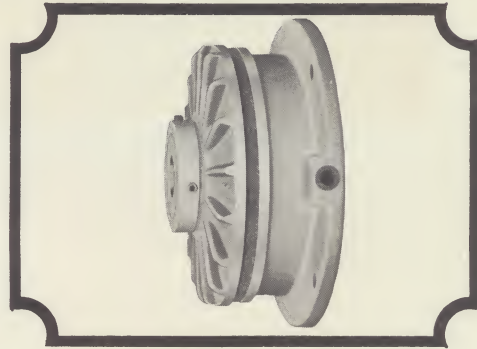

Horton Clutches and Brakes can provide the safe, sure operation that will protect that investment.

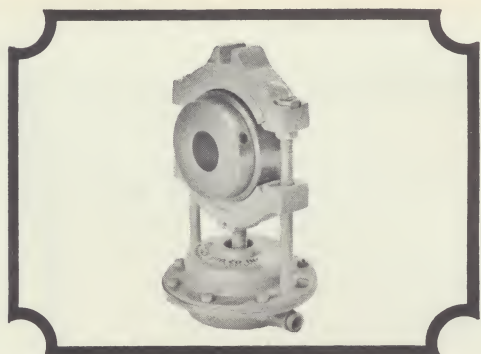

Versatile "Air-Champ" clutches — 6 models from fractional to 50 h.p. — all self adjusting, easily mounted anywhere — combination clutch and sheave — for soft, shockless, sure starts.

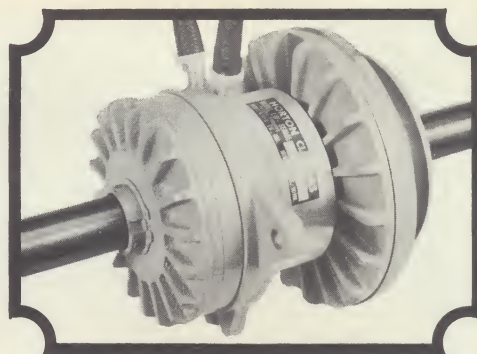

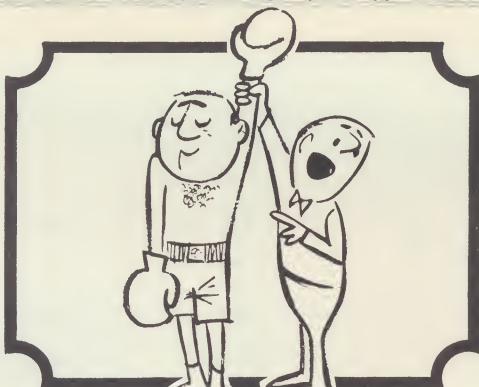

High Speed "Air-Champ" clutches — from 5 to 50 h.p. — operate on static air pressure, handle torque to 2400 inch lbs. — combination clutch and sheave — for special high speed applications.

Famous "Air-Champ" Brakes — 4 versatile models — up to 4300 inch lbs. torque capacity — low inertia, positive stops — mount anywhere easily — operate on static air pressure.

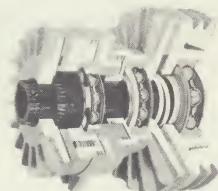

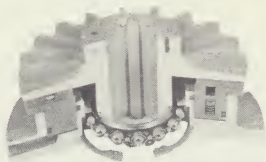

Horton Diaphragm Brake — for tension control, holding, continuous braking — drum size 2 3/4" to 12" — a low cost, versatile, dependable brake with many applications.

Clutch-Brake-Sheave — a combination clutch, brake and driving sheave all in one unit — first by Horton — 4 sizes, fractional to 25 h.p. — for independent (but dependable) clutching and braking — minimum moving parts, long life, trouble free service.

A leading manufacturer and supplier of industrial clutches and brakes for over 30 years, Horton provides a complete line of products for a variety of industries. Any or all of these may be adaptable to your requirements. Get the full story on the complete Horton line . . . Mail the attached card today for complete details on any of the dependable Horton products.

"AIR CLUTCHES — AIR BRAKES"
